

CASE STUDY

KWO® MultiTex® DK Band and DK Rings Pulp&paper industry

PRODUCT

KWO® MultiTex® 2.0 Gasket.

INDUSTRIAL SECTOR

Pulp&paper.

APPLICATION

Application of KWO® MultiTex® 2.0 DK Band and DK Rings on all the boilers'manholes.

PROBLEM DEFINITION

Optimization and harmonization of the gaskets inventory: too many different types of materials being used with difficulties to identify the correct solution for the specific application, hence running the risk to choose the wrong gasket type (safety and efficiency hazards).

SOLUTION AND RESULT

KWO® MultiTex® DK Band and DK Rings, specifically designed for the sealing of steam boilers, suitable to seal man hole, head hole and hand hole.

APPLICATION PARAMETERS

Material: C.S.

Operating temperature: ° C

Operating pressure: bar

Medium: steam

Flange form/diameter: Oval

Sealing surface: 400x300x25 mm and 380x280x25 mm

Bolts: -

Torque: -

Previous seal: compressed fiber, tanged graphite, modified ptf.
