

Much more than a product supplier

Benefit from our service offer

October 24th, 2022

Dear customers and partners,

Being a technology-oriented company, we strive not only to be a supplier for our products but rather to be a support for our customers.

With our in-house AMTEC test rig we have the ability to perform a wide variety of tests for you. In addition, our colleagues from the service department are always available to provide you with sound technical advice.

In the following, we would like to give you an overview of our range of services:

1. Tests on AMTEC test rig:

- according to DIN EN 13555 (upsetting test, relaxation test, leakage test)
- according to VDI 2440 (determination of the specific leakage rate based on TA Luft for any type of flange)
- according to DIN 28090-2 (compressive creep test, determination of hot/cold creep and hot/cold recovery)
- according to DIN 3535-6 (determination of the specific leakage rate of gaskets for use in gas supply)

2. Further laboratory tests

- Pressure test
- Tensile test
- Adhesive strength

3. Torque calculation

4. Expert advice and application engineering

5. Customer trainings, webinars and lectures about ePTFE and PTFE products

Benefit from our comprehensive range of services!

Do you have any other technical questions or need support? Then please feel free to contact us at any time or send an e-mail to service@kwo-ptfe.de!

Your KWO®-Team
